introducing our concentrated blend

Iselux[®] SLC

INCI: Sodium Lauroyl Methyl Isethionate (and) Sodium Lauroamphoacetate (and) Cocamide MIPA

Iselux[®] SLC is a concentrated blend developed for use in formulating structured surfactant systems for sulfate-free personal care products.

- optimized for the quick and easy development of stable finished products like creamy body washes and shampoos
- can be cold processed
- stable under freeze/thaw conditions
- 77% naturally derived according to ISO12168
- mass balance version available
- unique proprietary technology
- **1,4-dioxane free***

sustainable & mild

- sulfate-free
- readily biodegradable
- low irritancy profile
- naturally derived ingredients

luxurious

- exceptional foaming performance
- provides a unique rheology profile that provides lotion and cream-like textures

creativity & flexibility booster

- enhanced consumer appeal: lotion like feel and texture
- exciting visual effects are achievable
